

CONSERVATION AND PHYSICOCHEMICAL STUDY OF METAL ARTIFACTS

*

Athens – Chalkis , 3 - 8 February 2020

Partners in this project: Faculty of Archaeology, Leiden University; Ephorate of Antiquities of Euboea (Chalkis); Netherlands Institute at Athens (NIA); Greek Research Center/Laboratory 'NCSR Demokritos' (Athens).

The Workshop (3 ECTS):

During one week (3-8 February 2020), a workshop for the 'CONSERVATION AND PHYSICOCHEMICAL STUDY OF METAL ARTIFACTS' will take place at Athens and Chalkis in Greece. This workshop provides an unique opportunity for BA, MA, RMA and PhD students to gain more knowledge and a hands-on experience in conservation of metal objects. Finally, a first approach of physicochemical analyses will be presented. All teaching will be in English.

Contact for information:

Workshop instructor:

Adamantia Panagopoulou

mpanagopoulou@hotmail.com

Application: www.nia.gr

Application deadline:

24 January 2020, or until the places are filled (maximum 12-15 persons).

All participants will receive: 3ECTS, project notes, certificate & a T-shirt

By the end of the workshop the participants will:

- get knowledge on the exchange of goods and the use of metal objects;
- learn about shapes, types and technology of Byzantine metal objects & improve their knowledge on Byzantine history and archaeology in Greece;
- get acquainted with the basic methods of documentation for the conservation and restoration of Byzantine metal objects;
- learn about the necessity of physicochemical analyses on metal objects;
